

## PhD course in Nutritional Epidemiology

### **Join us at the beautiful Sandbjerg estate for a three-day PhD course in Nutritional Epidemiology**

This PhD course introduces core principles for designing and analysing nutritional epidemiological studies

#### **During the course, you will learn how to:**

- Design and conduct studies enhanced for causal inference in nutritional epidemiology
- Analyse nutritional epidemiological data
- Evaluate and bias assess nutritional epidemiological studies

#### **Course information:**

This residential course takes place at Sandbjerg Estate in Sønderborg, Denmark. Meals and accommodation are included.

For PhD students and others employed outside of Aarhus University, a payment for accommodation of 1,613.00 kr. will be charged.

#### **Course dates:**

11(evening)-14 September 2023

#### **Read more and sign up for the course at:**
